TO WHOM IT MAY CONCERN:

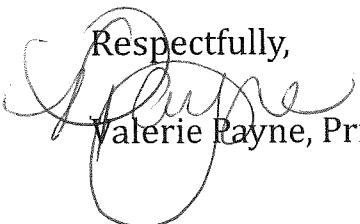

It is a pleasure for me to write this letter of recommendation for Mr. Mark Seguin and his company, TBG Solutions.

Mark came out to our campus last year and did one of his phenomenal assemblies on the dangers of social media. In a time where our students practically "live" on their phones (or other devices), we were most appreciative that - in his presentation - Mr. Seguin thoroughly covered a myriad of social media sites; wherein he included information on sexting and cyberbullying and the consequences of being involved; additionally, he enlightened our campus about both positive and negative apps our students should be wary of.

The assembly was well received by our students and staff, most likely because the information was timely, pertinent, and well presented. Mark allowed time for questions at the end, and he even scheduled a special time (in the evening) for parents to receive the same information that was shared in the all-school assembly.

If you are looking for an interesting, impactful means of informing your students and/or staff about the liabilities of social media, I give Mark Seguin and TBG Solutions my highest recommendation.

Respectfully,

Valerie Payne, Principal
